HWBB.18 DECLARATIONS OF INTEREST

There were no declarations of interest received in respect of any item on the agenda for this meeting.

HWBB. 19 MINUTES

RESOLVED - The minutes from the meetings of the Health and Wellbeing Board held on the 30th November 2020 and 18th January 2021 were agreed as an accurate record.

HWBB. 20 COVID-19

The board received a presentation updating them on the latest COVID-19 epidemiology across North East Lincolnshire.

Members of the board queried if there were plans to publish the data on the lateral flow tests because they felt it would be useful to keep track the data to see if the testing was helping to drive down the transmission of Covid-19. Mr Barnes confirmed that this data would be reported to the Place Board and in local epidemiology reports.

Mr Walsh welcomed the good news about the rollout of the vaccination programme and queried if there was hesitation with residents receiving the vaccine. Mr Barnes explained that over 90% of people who had so far been offered the vaccines had accepted that had exceed expectations. There remained concerns over the younger age groups and some care home workers where there may be some hesitation around having the vaccine.

Ms Kenyon explained to the board, where there was identified hesitancy to have the vaccines there was targeted door to door approach to help and support those people in receiving their vaccine if required, which had proved to be positive. Mr Barnes confirmed there was lower uptake of the vaccine in some of the more deprived communities and work would continue with those residents.

RESOLVED – That the update be noted.

There being no further business the meeting was closed at 2:30pm
