

## CABINET

<b>DATE</b>	20 <sup>th</sup> December 2023
<b>REPORT OF</b>	Cllr Stan Shreeve, Deputy Leader & Portfolio Holder for Health, Wellbeing and Adult Social Care
<b>RESPONSIBLE OFFICER</b>	Katie Brown Director of Adult Social Services
<b>SUBJECT</b>	Section 75 agreement between North East Lincolnshire Council and Humber and North Yorkshire ICB
<b>STATUS</b>	Open
<b>FORWARD PLAN REF NO.</b>	CB 12/23/04

### CONTRIBUTION TO OUR AIMS

One of the Adult Social Care key strategic aims is through the North East Lincolnshire Health and Care Partnership (HCP) arrangements, build on the legacy of the North East Lincolnshire Council (NELC)/ Clinical Commissioning Group (CCG) Union arrangements, joining up Health and Social Care provision in a way that provides better support and care and makes best use of resources.

### EXECUTIVE SUMMARY

North East Lincolnshire NHS and NELC have a long and strong history of joint working, which started in 2004 and has been further developed over time.

The Integrated Care Board (ICB) and NELC have been working together to build new relationships, understanding and the right conditions to support the establishment of a formal partnership agreement (section 75) that will support the continued integration of health and social care in NEL.

It is proposed that a Joint Committee will oversee the partnership agreement with its membership drawn from the ICB and NELC. The operating model that supports the Joint Committee is already in place supported by the ICB place team many of whom are joint appointments across health and social care.

These arrangements will ensure that both the ICB and council are assured that they are able to effectively discharge their statutory duties, via the delegation to NEL Place.

This report is therefore seeking approval in principle from Cabinet for the establishment of a formal partnership agreement between the ICB (Health) and NELC , using the current s75 legal framework to do this. The initial scope of the agreement would include approximately £162m of ICB resources and £55m of NELC resources (Health and Adult Social Care) and the functions associated with the delivery of this.

It is proposed that the formal partnership agreement be in place and operational from 1<sup>st</sup> April 2024, and there is already a group of staff from across the ICB and NELC working on the detail of the agreement.

## **RECOMMENDATIONS**

It is recommended that Cabinet:-

1. Approves in principle the establishment of a formal partnership agreement between the ICB and NELC, underpinned by a section 75 agreement and overseen via a Joint Committee comprising members of Cabinet and Integrated Care Board
2. Delegates responsibility to the Chief Executive Officer and the Director for Adult Social Services, in consultation with the Leader of the Council and Portfolio Holder for Health, Wellbeing and Adult Social Care to settle and complete the terms of the s75 agreement and papers in support and to take any other action reasonably arising.
3. Supports the principle of operating in shadow form from January 2024 followed by the formal establishment of the Joint Committee from 1<sup>st</sup> April 2024.
4. That the interests of the Council on the Joint Committee be represented by the following members of Cabinet:
  - a. Leader
  - b. Portfolio Holder for Health, Wellbeing and Adult Social Care and
  - c. Portfolio Holder for Children and Education
5. That the Assistant Director Law and Governance be authorised to execute all such documentation arising.

## **REASONS FOR DECISION**

North East Lincolnshire has an established and long-standing history of integration between health and social care. The introduction of Integrated Care Boards in July 2022 meant that a revised and temporary Section 75 arrangement was put in place to enable the continuation of the North East Lincolnshire arrangements whilst the long-term governance arrangements were agreed and established. The paper outlines the route to establishing the new Section 75 governance arrangements.

### **1. BACKGROUND AND ISSUES**

- 1.1 North East Lincolnshire Health and NELC have a long history of working together, with formal partnership arrangements first being established in 2004 around Mental Health Services, this was followed in 2007 by more comprehensive partnership arrangements covering Health, Adult Social Care, Public Health and Childrens Services.
- 1.2 The arrangements in place have been amended over time to reflect the changes in legislation relating to health and care with the last amendment to the partnership arrangement taking place in June 2022 immediately prior to the formal establishment of the ICB.

- 1.3 NELC and the ICB are now working together to re-establish the partnership arrangements that were in existence prior to the 1<sup>st</sup> July 2022, which brought together the Health and Adult Social Care resources to enable joint strategic, operational and financial planning, joint decision making, and joint policy development, all supported by single contracting and performance processes.
- 1.4 As and when regulations allow, there is an ambition to go further with the partnership arrangements to support an even more integrated approach to population health and health improvement, incorporating more work around the wider determinants of health and children's services.
- 1.5 There is already an established operating model in North East Lincolnshire, and the majority of staff at place are joint appointments working across health and adult social care.
- 1.6 NELC and the ICB have jointly appointed legal advice from a nationally recognised legal practice (who have supported both NELC and CCG in the past) to support the development of the formal section 75 partnership agreement.
- 1.7 NELC has identified key officer leads to work with the operational place and governance teams from the ICB to progress the proposal at place.
- 1.8 The aim is to have the new section 75 agreement in place with effect from 1<sup>st</sup> April 2024, with NELC and the ICB working in shadow form from January 2024
- 1.9 Integrated working is a key strategic aim of NELC's Strategic plan and the ICB's operating model. Integration at Place is essential to ensure that the cross-sector partners are working together in the best interests of the population to deliver services in the most effective and efficient ways possible.
- 1.10 There was a joint presentation at the October ICB Board Development Day on the proposition to take forward a more formal approach to integrated working in NEL Place between the ICB and NELC, which would in turn work with the providers in place to maximise the benefit of joint working.
- 1.11 Principles were proposed to help shape and define the size of the agreement and the delegation to Place. Using those principles, the latest estimate of the financial delegation by each partner would be £162m from the ICB and c.£60m from NELC (subject to the 2024/25 budget setting process). This would include the function associated with the budget being managed, where appropriate at Place.
- 1.12 A summary of benefits from a financial, quality and performance perspective that have already been seen at Place from joint working have been shared.
- 1.13 Feedback from the ICB Board Development discussion was positive with an appetite to go further as other areas for joint working were identified.

## **2. RISKS AND OPPORTUNITIES**

- 2.1 The existing and proposed governance and operational arrangements mitigate the majority of risks regarding a deterioration in finance, performance and the quality of services.
- 2.2 The main risk would be from having to uncouple those existing arrangements if

a new partnership agreement cannot be agreed. NELC and the ICB are working together to develop the proposed partnership agreement, so any future areas of disagreement and risk are mitigated.

- 2.3 This arrangement is unique and potentially the first of its kind nationally since the introduction of ICB's and whilst this is a significant opportunity, given the challenges experienced both within the NHS and Adult Social Care the potential risks need to be clearly mitigated in the schedules of the arrangement.

### **3. OTHER OPTIONS CONSIDERED**

The only other available option is to disaggregate health and social care so that each organisation delivers its own functions with separate governance arrangements, staff teams and budgets. Given the strategic aims for continued integration for both organisations then this isn't currently a consideration.

### **4. REPUTATION AND COMMUNICATIONS CONSIDERATIONS**

- 4.1 The development work is being undertaken in partnership with NELC and with the support of the health and care providers as stakeholder partners.
- 4.2 No specific engagement with the public has been undertaken or is planned as this is predominantly a governance proposal. However once established the Joint committee will ensure engagement with the public as part of its ongoing work to improve services and outcomes. There is a genuine commitment to co-production across the Health and Care Partnership. Some recent examples of how this is already happening would be the recent development of the NEL place Mental Health strategy which was led by experts by experience and the co-production of the Carers Strategy.

### **5. FINANCIAL CONSIDERATIONS**

- 5.1 The Section 75 formally delegates the Adult Social Care budget into a pooled arrangement with the ICB under the governance of the Joint Committee. This establishes the same delegation and arrangement that was previously in place with the Clinical Commissioning Group prior to July 2022 and the introduction of the ICB.
- 5.2 The details of the financial arrangements will be clearly specified in the main body and schedules of the Section 75 agreement. This will include all aspects of governance agreed between NELC and the ICB for the management of the pooled budget and decisions made about its use under the governance of the Joint Committee.

### **6. CHILDREN AND YOUNG PEOPLE IMPLICATIONS**

Currently there are no implications for children's services although there is the shared ambition in time to progress integration in mutually agreed areas of children's services.

## **7. CLIMATE CHANGE AND ENVIRONMENTAL IMPLICATIONS**

As this is a decision relating to the governance arrangements for health and social care there are no foreseen negative environmental impact.

## **8. CONSULTATION WITH SCRUTINY**

Scrutiny considered the proposals on the 30<sup>th</sup> November 2023.

## **9. FINANCIAL IMPLICATIONS**

There are no direct financial implications of this report. The Section 75 Agreement defines the continuing finance operation and governance arrangements between NELC and the ICB.

## **10. LEGAL IMPLICATIONS**

- 10.1 The Council is no stranger to integrated working across the local health geography. The reference to s75 in the above report relates to s75 National Health Service Act 2006 which provides for partnership working between NHS bodies and local authorities if such arrangements are likely to lead to an improvement in the way subject functions are exercised.
- 10.2 The advent of a Joint Committee as envisaged above is permitted by recently enabled statutory provisions and it is prudent that the operation of such committee operates in shadow form on an interim basis.
- 10.3 The proposed s75 agreement will capture appropriate terms of reference and governance arrangements. This is likely to be of the same ilk as the former Union Board with which Elected Members will be familiar.
- 10.4 The delegations sought are appropriate.

## **11. HUMAN RESOURCES IMPLICATIONS**

The continuation of the Section 75 arrangement would ensure no changes to the current arrangements relating to people's employment.

## **12. WARD IMPLICATIONS**

The Section 75 agreement defines the delivery of Health and Social Care across all wards in North East Lincolnshire

## **13. BACKGROUND PAPERS**

The ICB Board paper agreed on the 8th November 2023.
