**Which of the licensing objectives does your representation refer to? (Select all that apply):**

Prevention of Public Nuisance

**Prevention of public nuisance:** Music / alcohol licence

Unsociable hours of live music

12pm/00.00

12pm/02.00

In a residential block of flats.

Less than 6 foot above the property there are 5 flats where children stay, shift workers sleep.

Not only would it affect our home life, if which we pay a substantial amount of rent to live there.

Music until the early hours would also affect our work.

I think you would, ( and I don't mind if you would like to visit) have to visit my flat and the rest of the property to just understand how it will be.

The guys have been working downstairs, and at times it seems as though they are in my next room talking, that's how much sound travels throughout the building.

Also with all residents having either their own children or grandchildren living with them, or even stay over, it's not ideal having drunk people around the entrance to our property, which is again less than 3ft away.

People who reside in the flats both above and to the side of 21 Alexandra road Cleethorpes

DN358LG, are all working, and work different shift patterns, so live / recorded music

Or whatever, at some point is going to disturb one of not all of the residents.

**If possible please suggest alterations to the application that would resolve the problem mentioned above, again paying attention to the licensing objectives:** To look again at the unsociable hours for playing music directly below residential block of flats.
